■ B.Tech Artificial Intelligence and Data Science | Prince Dr. K. Vasudevan College of Engineering
■ Chennai, Tamil Nadu

Career Objective

Motivated and enthusiastic pre-final year Artificial Intelligence and Data Science student with a strong foundation in programming, analytics, and emerging AI technologies. Seeking opportunities to apply data-driven insights and innovative problem-solving skills in dynamic real-world projects.

Educational Qualification

Qualification	Institution	Year of Passing	Score / CGPA
B.Tech – Artificial Intelligence and Data Science	Prince Dr. K. Vasudevan College of Engineering	2027	8.45 CGPA
Higher Secondary (12th)	State Board	2023	80%
Higher Secondary (11th)	State Board	2022	85%
SSLC (10th)	State Board	2021	95% (All Pass)

Technical Skills

Programming: Java, Python, C++

Tools & Platforms: Power BI, Figma, Canva, Microsoft Excel, MySQL

Technologies: Machine Learning, Generative AI

Areas of Interest: Data Analytics, AI Tools, Full stack

Academic Projects

RideCalm – Train Occupancy Software (LEAP Project)

- Developed a web-based system to monitor real-time train seat availability using AI-based analytics
- Focused on occupancy prediction and data visualization

Oxymora – Smart Plant Monitoring App

- Built an AI-driven app prototype for plant health monitoring using sensor data
- Used Firebase and Google tools for real-time tracking and visualization

Smart Data Wiping System (SIH Hackathon)

- Designed a secure automated data erasure system to prevent unauthorized data recovery

Modular Battery Management System (Vishwakarma Project)

- Proposed an IoT-based modular battery monitoring solution to improve efficiency and sustainability

Workshops & Certifications

Workshops: Machine Learning Workshop ,Generative Ai, Power BI

Courses: Generative AI & MongoDB Fundamentals

Certifications: Power BI Certified, Microsoft Learn Certification, Google Badges in Generative AI

Achievements & Interests

- **Secretary** of the Artificial Intelligence and Data Science Club
- Passionate about **data analytics** and **AI-driven solutions**
- Interested in exploring business intelligence and predictive analytics
- Enthusiastic learner of modern AI tools and visual design software

Relevant Coursework

- Data Structures & Algorithms
- Database Management Systems (DBMS)
- Operating Systems
- Artificial Intelligence & Machine Learning
- Data Science & Analytics
- Probability & Statistics
- Deep Learning (Basics)
